

ATTAINABLE, APPLICABLE AND RETRIEVABLE WHEN SECONDS COUNT....

Course Description: Blue Card Certification Simulation Lab

Session Type: 3 Day Theory and Simulation

The certification portion of the Blue Card Program incorporates a review of the Standard 8 Functions of Command, Regional Standard Operating Procedures, Tactical Operations Templates for 5 local occupancy types, and high fidelity structure fire simulations. This evaluation portion of the Blue Card Program merges the Hazard Zone Management - Incident Command Standard with local resources, SOP's, tactical hazards, and the standard operational action required for conducting safe and effective locally based operations. The simulation based training provides the students with valuable hands on training and experience for high risk, low frequency events. In order to obtain certification as a Blue Card IC, each student must successfully serve as Incident Commander (IC) No. 1, the fast-attacking Company Officer, and as Incident Commander No. 2, the Battalion or Platoon Chief for each of the 5 building types (a total of 10 times) to become certified.

Delivered at a local CTC, or brought directly to your department with a portable simulation lab, the simulation/evaluation portion of the Blue Card program not only builds the personal skills of each student, it also serves as means to make improvements to the current systems we use to manage the hazard zone (ICS), the strategy & tactics we employ and the systems we use to keep firefighters operating safely.

Formatted for delivery over a 3-day period, the Blue Card Simulation/Evaluation is also available in Canada in 4-day format to address paid-on-call departments and provide additional time for tactical template review and department specific matters.

DELIVERING PROGRAMS ACROSS THE UNITED STATES AND CANADIAN FIRE SERVICES FOR OVER 20 YEARS, THE DELIVERY METHODS FOR AOYS PROGRAMS ARE TAILORED TO MEET THE NEEDS OF YOUR DEPARTMENT PROVIDING KNOWLEDGE AND SKILLS THAT ARE ATTAINABLE, APPLICABLE AND RETRIEVABLE WHEN SECONDS COUNT...
