

ATTAINABLE, APPLICABLE AND RETRIEVABLE WHEN SECONDS COUNT....

Course Description: Alpha-side Recognition: Nozzleman Situational Awareness

Session Type: 2 hour Theory and Simulation-Based Program

Lack of situational awareness continues to be a major contributing factor in fireground losses. If we accept that today's structure fires burn differently, why would we conduct size-up the same way we did 20 years ago? First-due officers can become quickly overwhelmed as they attempt to process all of the critical fireground factors while stepping down from the right-hand seat. This program provides a template for combining crew-resource management (CRM) with optimum situational awareness negating the zero-action period frequently encountered by the entry team while the Company Officer completes the 360° size-up.

DELIVERING PROGRAMS ACROSS THE UNITED STATES AND CANADIAN FIRE SERVICES FOR OVER 20 YEARS, THE DELIVERY METHODS FOR AOYS PROGRAMS ARE TAILORED TO MEET THE NEEDS OF YOUR DEPARTMENT PROVIDING KNOWLEDGE AND SKILLS THAT ARE ATTAINABLE, APPLICABLE AND RETRIEVABLE WHEN SECONDS COUNT...
