

ATTAINABLE, APPLICABLE AND RETRIEVABLE WHEN SECONDS COUNT....

Course Description: Charlie-side Forcible Exiting:
Forcing the Rear Door

Session Type: 8 hour
Theory and Hands-On Program

Your department has worked hard to prepare its firefighters for forcible entry into strip mall and commercial structure fires. But once they are deep inside the structure, can you get them out quickly if they get in trouble? Unlike traditional forcible entry which focuses on access through the less-fortified alpha-side; “forcible exiting” concentrates on gaining rapid egress through fortified doors on the charlie-side of the structure when seconds count! This class presents attendees with the knowledge and skills necessary for assessing and safely and effectively softening fortified rear doorways on commercial structures. Faced with a Mayday event in the future, could you provide the charlie-side forcible egress necessary to save one of your own?

DELIVERING PROGRAMS ACROSS THE UNITED STATES AND CANADIAN FIRE SERVICES FOR OVER 20 YEARS, THE DELIVERY METHODS FOR AOYS PROGRAMS ARE TAILORED TO MEET THE NEEDS OF YOUR DEPARTMENT PROVIDING KNOWLEDGE AND SKILLS THAT ARE ATTAINABLE, APPLICABLE AND RETRIEVABLE WHEN SECONDS COUNT...
